

Food or Funds?

You could buy these items at a **grocery store**, and donate them to the Food Bank:

or

You could donate the same amount of money to the **Food Bank**, and we can provide this much more food for the hungry:

\$5

\$10

\$20

How is this possible? Because we are acquiring food on such a large scale – more than 13 million pounds each year - we can achieve savings that the average shopper cannot. Here at the Food Bank, 96 cents of every dollar goes directly to hunger relief, so you can trust us to make your charitable gifts reach as far as possible.

To donate, visit us at foodbankcny.org or call us at (315) 437-1899.
